

TEST SPECTRUM

COMPANY OVERVIEW

- Semiconductor test solutions
- Extensive test engineering experience
- Headquartered in Austin, Texas
- Incorporated in 1999
- Independently owned & operated

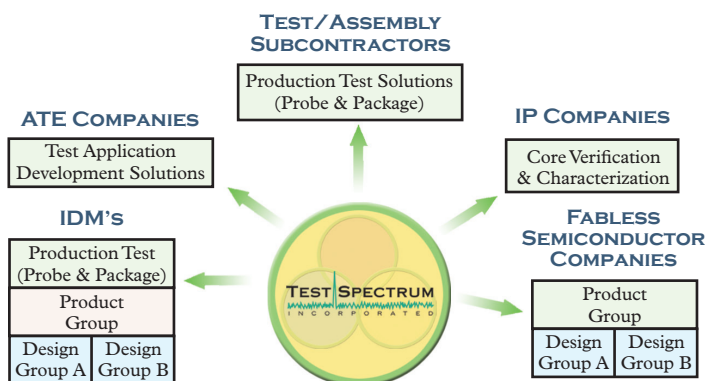

PRODUCTS AND SERVICES

Products & services combined or customized as needed to meet individual customer's requirements.

CUSTOMERS AND MARKETS

PORTFOLIO OF EXPERIENCE

Digital/Datacomm	Mixed- Signal	RF
ASIC w/ PCIX, GDDRIII	UWB BBIC	UWB RF Front End
Multimedia SOC	PHS BBIC	PHS PA/SW/Down Cnv
PPC DDRII SOC	Voice over Baseband	FM Tuner
Dual MCU/DSP Core BB	Voice over SLAC	Direct IQ Mod/Mixer
Quad Serial Backplane	VDSL Front End	GPS RF ASIC
Multi-Port Serdes IC's	Disk Drive Read Ch	Bluetooth Transceiver
10Gb/s Serdes	WLAN (802.11g) BBIC	WLAN Dual Transceiver
5Gb/s Laser Driver & PA	DC-DC POL Converter	CDMA/FM BBIC w/ RF
PWM Controller	Powerline Transceiver	GPS RF Front End

The engineering staff at Test Spectrum has extensive experience in developing complete test solutions for a wide range of product technologies, including many of today's leading edge test challenges.

THE TEST SPECTRUM ADVANTAGE

- Stability of an established corporation
- Experience of test engineering veterans
- Capacity of a large engineering staff
- Capability to provide true turn-key solutions with in-house software & hardware engineers
- Technology to implement leading-edge test solutions
- Flexibility to choose tester platforms and test locations
